Mr. David T. Waggoner
Airport Director
Snohomish County Airport/Paine Field
3220 100th Street SW
Everett, WA 98204-1390

Dear Mr. Waggoner:

We are glad to inform you that the Aviation Fuel and Fire Safety Course presented through the Snohomish County Airport Fire Department has been nationally approved by FAA, Airports Division in headquarters. This course will appear as one of thirteen acceptable courses for fire safety in fueling on the current CertALert list.

Captain Dennis Hill, Snohomish County Airport Fire Department and Terry Wilcoxon, Fliteline Services, Inc.; have worked diligently at perfecting this course to meet national standards. This process has taken several years, since 1997, and has finally come to fruition. This helps many airports in the state of Washington and the Pacific Northwest to receive this training locally. Our congratulations to both of them for their hard endeavor and accomplishment to meet the national criteria for this course.

Sincerely,

Lynn G. Deardorff
Airport Certification Safety Inspector
