All flammables must be stored in a metal container with a tight fitting lid with sump capability at a minimum, or any other Airport approved containment device. Flammable storage, including gasoline and petroleum based products (other than inside the aircraft fuel storage tank) is limited to a maximum of ten (10) gallons in each hangar unit. The premises covered by this Agreement shall not be used for the storage of explosive substances or items. Lessee shall maintain the hangar in good, safe condition at all times.

Lessee shall provide a deposit for the lock(s), core(s), and key(s), shall not have duplicate keys made by anyone other than the Airport, and shall return all lock(s), core(s), and key(s) upon terminating tenancy. Any security deposits on the Hangar will not be returned until all lock(s), core(s), and key(s) are returned.
