Thursday, December 18, 4 pm - 7 pm

At the Future of Flight

8415 Paine Field Blvd.

Future of Flight Foundation will be accepting donations for

Volunteers of America Food Drive

Toys for Tots

Winter Weather Reminder

Aircraft on tie downs should be properly secured and checked on a regular basis. There have been several instances in the past where aircraft have been damaged during high wind storms because they were not properly tied down. It is the responsibility of the aircraft owner to ensure the aircraft is properly secured.

This is also the time of year when snow creates complications! The Airport Snow Team has limited amounts of personnel and equipment. Our first priority is to keep 16R-34L and taxiway Alpha open. As our workload and snow accumulation permits, we will try to plow the other Airport runways and taxiways. However, heavy workloads or a forecast that says the snow will melt within a day or two may mean that we are unable to get to a particular runway or taxiway. During every snowstorm, the Airport receives phone calls from pilots asking us to plow in front of their hangar so they can go flying. Please remember that this is not always possible, and there are times when there may be significant delays before we can get to you. The Airport is not responsible for plowing leased areas, but we will continue to plow when possible. Remember that plowing a single path to a hangar creates numerous problems such as drifts and berms. Please be patient.

Rich Mosler has joined the Paine Field Operations Department as an Operations Assistant. He hails from San Diego but graduated from Embry Riddle Aeronautical University in Prescott, Arizona May 2008. While attending school there he earned degrees in **Aviation Business Administration** and **Airport Rescue and Aviation Safety** and graduated with **Honors**. He was President of the Student Chapter of the **AAAE (American Association of Airport Executives)** and was granted the **Outstanding Graduate from the Business Department Award**. This award is given to only one graduate each year. His hobbies include surfing, snowboarding, and music (DJ'ing),

The Airport welcomes Richard!

The Everett Area Chamber of Commerce has announced that **Dave Waggoner**, will receive their annual **Chairman's Award**. Dave is being honored for his extraordinary support and contributions toward making the Everett Area Chamber of Commerce a successful organization. Dave oversees the operations of Paine Field, the Snohomish County Airport, where he's been director since 1992. He is a past board member of the Chamber and its long-time cheerleader. He firmly believes in the benefit of Chamber activities, attending key events and often hosting representatives from county, state, and federal offices. He is one of Snohomish County's most involved and inspired leaders.

Congratulations to Dave!

Beginning Monday December 8th, the Airport will begin replacing all the keys, padlocks and cores on all Airport owned hangars. For those of you who are on the Airport during the week, we would appreciate your stopping into the Airport Office with the padlock off of your hangar and the keys that are assigned to you. We will then give you a new padlock and keys. To help accommodate the replacement of all these keys and locks, Airport Operations staff will be available from 8-5 on Saturday December 13th and 20th.
