

# Monthly Noise and Operations Summary

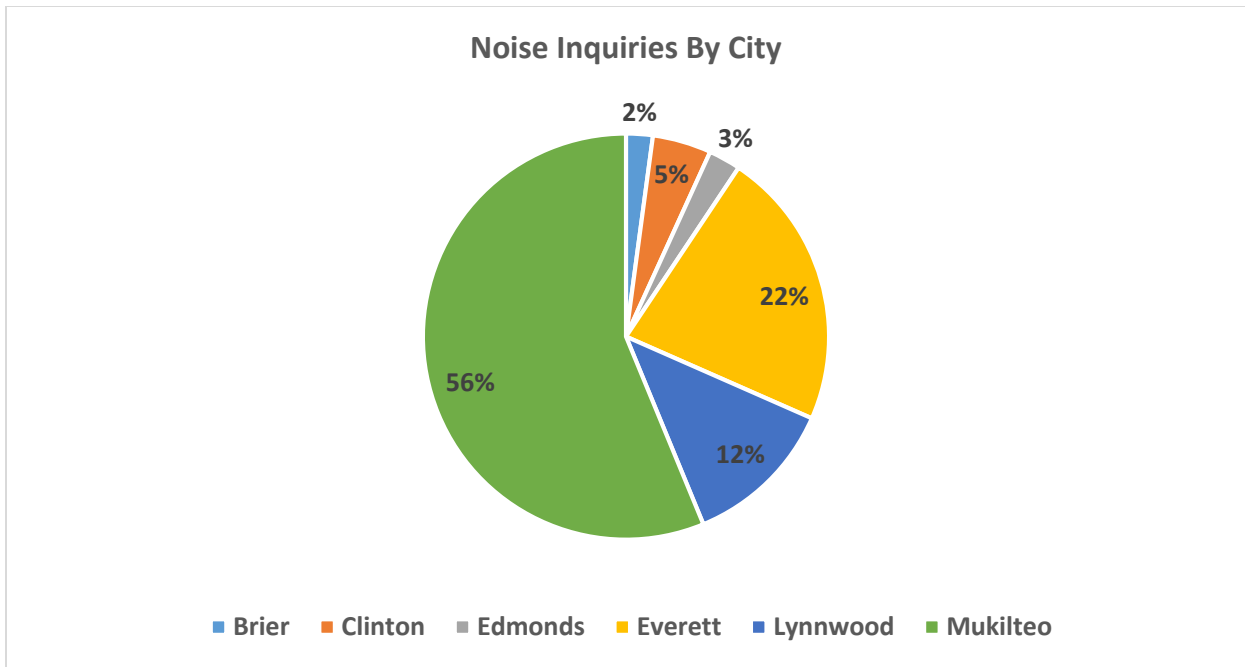

July 2019

### Noise Brief:

During July 2019, Paine Field received a total of 1,967 noise comments from the surrounding communities. Data show that four households were responsible for 47% of the noise comments.

During July 2019, the Paine Field air traffic control tower recorded 13,779 flight operations. This is a 9.05% increase in operations compared to July 2018 (12,635 operations). The four-year average for July is 13,309 flight operations. Total operations for July 2019 were 3.53% above the average.

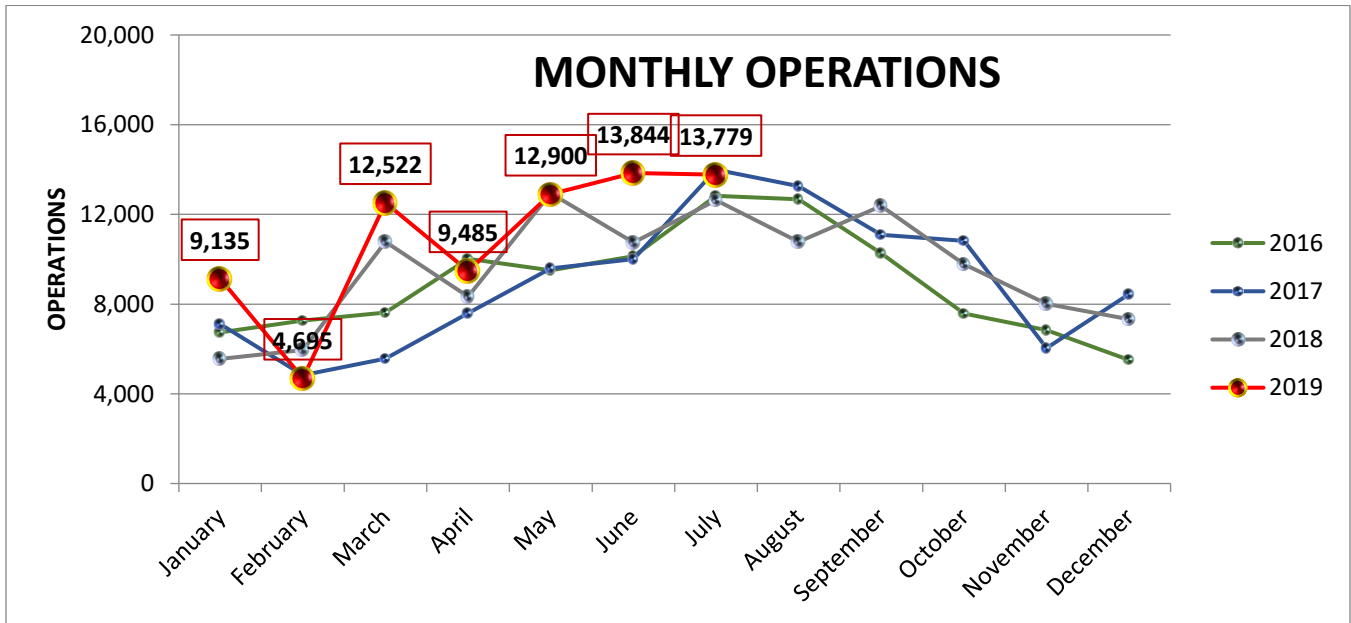

**Complaints:**

\*Cities with less than 1% are not represented

Many factors contribute to the number of complaints received each month. An unusual flight may get the attention of a large group of people. Re-routed traffic from nearby airports can add more planes to the skies. Cloud cover may reflect sound. A handful of people file multiple reports, sometimes dozens on a daily basis.

Noise complaints are received via the airport’s web based noise complaint form or telephone hotline. Complaints can be correlated to specific flight operations using a combination of radar tracks, the aircraft’s automatic surveillance system and the FAA flight plan system. Since FAA flight operations data is not released until the third week of the following month, there typically is a lag in the monthly summary being posted.
