

## Appendix Q Table of Contents

---

Included in these documents are the comments submitted on the Draft EA, as well as responses to those comments. In general, comment letters were filed under the last name of the individual who submitted the letter.

If no name was provided, the letter was either filed by the e-mail address submitted or under “unidentified.” Additionally, those letters provided by an official city, county or agency organization were filed under the name of the organization (i.e. City of Mukilteo would be filed under “M” for Mukilteo). Those that were filed under the organization title are denoted in the Organization column of the Table of Contents. Agency letters submitted during the comment period were put into separate appendices where appropriate. Comments provided at the public hearings are located in **Appendix R**.

Each comment letter is provided followed by references to applicable general response comment codes (i.e. responses to those comments that were made by more than five people). These comment codes correspond to the general responses included in **Appendix S**. If there was not a general response code applicable to a comment in the letter, individual responses were prepared and those individual responses follow the list of general response codes in this binder.

The following pages provide a Table of Contents for Appendix Q. In certain cases, individuals submitted more than one e-mail/letter or submitted the same comments to multiple addresses (County, Airport, or FAA). In the case where several different letters were submitted, all letters that were substantially different were kept in the document; all duplicates were removed. Therefore, in the Table of Contents there may be multiple iterations of the same name, illustrating the fact that an individual submitted multiple comment letters that were considered different or unique. Where comments were submitted to multiple sources (County, Airport or FAA), this is noted in the header of the response to comments.
